

SureColor[®] F9470H 64-Inch Roll-to-Roll Dye-Sublimation Printer

SureColor F-Series

Wide-Format Inkjet Printer

High-speed, reliable productivity for high-visibility digital dye-sublimation transfers.

Breakthrough productivity — dual printheads deliver industrial-level, roll-to-roll performance at speeds up to 1,169 square feet/hour¹

Brilliant image quality — UltraChrome[®] DS6 Ink Technology with Fluorescent Yellow and Pink Ink produces exceptional color saturation and high contrast

True roll-to-roll support — high-accuracy take-up reel supports efficient calendar heat press transfer

Turnkey solution, fully supported by Epson[®] — includes Epson Edge[®] Print and ICC profiles, for use with optimized Epson DS Transfer Papers

Predictable, reliable performance — advanced auto paper-tension control and the fabric head wiper enable simple, continuous production

More ink means less downtime — high-capacity ink tanks hold up to 3 L per color, for longer print runs without user intervention

Epson Edge Dashboard — remotely run cleanings, check ink levels, update firmware and download new media profiles from your computer

Exclusive Epson Rewards program available — accumulate points with every consumable purchase for discounts on extended service coverage; visit www.epson.com/SureColorRewards for more information

Affordable, scalable solution — offers an excellent performance-to-price ratio; easily add printers to meet your business needs

*Printer is designed for use with Epson ink packs only, not third-party ink packs or ink. **

ECO PASSPORT by OEKO-TEX is a system by which textile chemical suppliers demonstrate that their product can be used in a sustainable textile production. Epson dye-sublimation ink is certified by the ECO PASSPORT. This is an international safety standard in the textile industry. It is certified to be safe for adults and children, including babies.

*This product uses only genuine Epson-brand ink packs. Other brands of ink packs and ink supplies are not compatible and, even if described as compatible, may not function properly.

¹ Print speeds are based on the print engine speed only. Total throughput time for any print depends on various factors including workstation configuration, file size, print resolution, ink coverage and networking. Actual print speeds will vary. | ² Cartridge yields vary considerably based on images printed, print settings, paper type, frequency of use and temperature. For print quality, a variable amount of ink remains in the cartridge after the "replace cartridge" indicator comes on. The printer ships with full cartridges and part of the ink from the first cartridges is used for priming the printer. | ³ For convenient and reasonable recycling options, visit www.epson.com/recycle | ⁴ SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency.
